SMEs: setting up your company's CSR

We aim to strengthen the business model of our clients through simple tools and processes. Our consultants help SMEs shape their CSR programs benefitting their unique requirements of entrepreneurialism, competitive instinct and innovation. Our team usually structures this approach around the conduct of a sustainability report under the GRI format, distributed over the five following steps:

1. Diagnosis & report objectives
2. Planning the report
3. Preparing the report
4. Communicating the report
5. Continuous improvement

SMEs: sustainability compliance & certification

Our team consists of young and dynamic experts ready to accompany you in the process of legal governance, risk management and compliance of the conduct of your business regarding environmental and social issues. The frameworks, labels and certifications covered in our service include:

- ❖ Ethical accounting: UNGC
- ❖ Social accounting: ISO 26000, OHSAS 18001, SA 8000, AA 1000 series
- ❖ Environmental accounting: Carbon footprint, ISO 14000, 14031:1999
